

Remarks

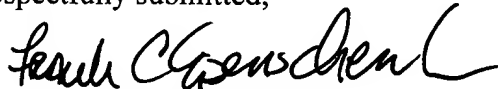

Claims 1, 8-16, 30, 51, 52, and 57-65 are pending in the subject application and currently before the Examiner.

The amendments presented herein are being made to conform the application with the provisions of 37 CFR §§1.821 through 1.825. Applicants would like to thank the Examiner for the courtesy of the telephonic conference conducted with Applicants' undersigned representative on May 23, 2005 during which the Examiner and Applicants' representative discussed proposed amendments to the specification and sequence listing as the subject application appears to be in condition for allowance. Applicants respectfully submit that the amendments to the specification and sequence listing herein are in accordance with the substance of the telephonic conference with the Examiner.

Specifically, the Examiner indicated that Figures 1 and 2 of the subject specification did not include a sequence identifier for sequences referred to in those figures. The Examiner further requested that the specification be updated to reflect the sequences in the "Legends to the figures" section and to include the necessary paragraph for submitting the sequence listing on CD-ROMs. By this Amendment, Applicants have amended the subject specification in accordance with the Examiner's suggestion and have also submitted a replacement sequence listing which includes the sequences shown in Figures 1 and 2. Applicants note that the four sequences shown in the figures are identical and correspond to SEQ ID NO: 5182. I hereby certify that no new material is being added by this submission.

The Commissioner is hereby authorized to charge any fees which may be required to Deposit Account No. 19-0065.

Respectfully submitted,

Frank C. Eisenschenk, Ph.D.
